

Your Best Source for Portable Climate Control

SALES • RENTALS • SERVICES

September 2009 Volume 1, Issue 2

The PRED600 Mini-Predator is the world's lightest and smallest portable air scrubber, weighing in at less than 34 pounds! Its rotational molded resin cabinet is virtually indestructible, and has a limited lifetime warranty. The Mini-Predator PAS delivers an incredible peak airflow rating of 600 cfm. Great for indoor air quality issues during remodeling and new construction, especially for critical areas like server rooms, hospitals and schools. Contact **All American Portable Air** for large project applications.
